

Connected and Autonomous Vehicles e-learning from the IET Academy

Develop your technical knowledge and gain new skills in the application of autonomous vehicles with our online Connected and Autonomous Vehicles (CAV) courses.

The IET Academy provides CAV courses in the following disciplines:

INTRODUCTION TO
THE CAV LANDSCAPE

CAV
CYBERSECURITY

CAV HUMAN FACTORS
AND HUMAN-MACHINE
INTERFACE

CAV SENSORS AND
SENSOR FUSION

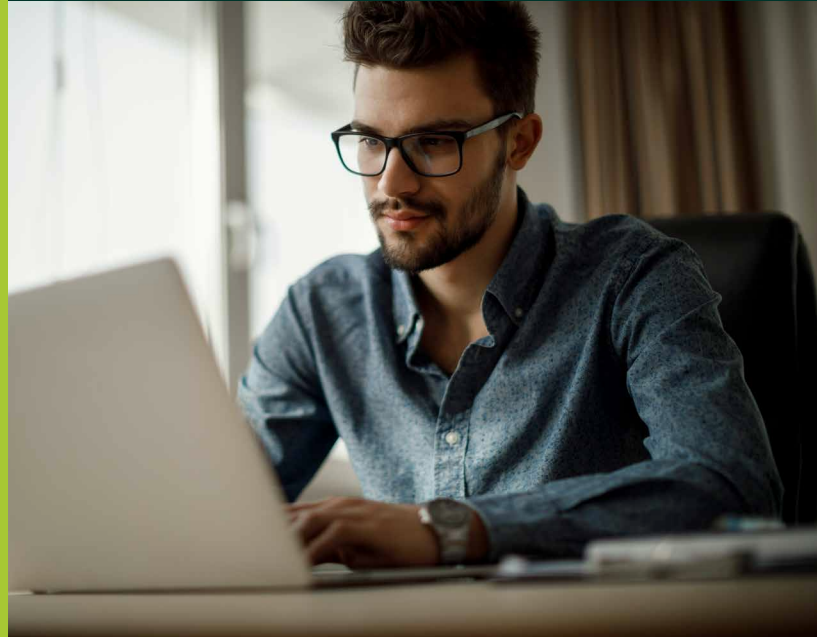

CAV
CONNECTIVITY

CAV COMPUTER
VISION AND AI

Our courses have been developed in conjunction with Connected Places Catapult. Each course will provide you with an insight into the key aspects of the CAV landscape, helping you to learn best practice in the application of Connected and Autonomous Vehicles.

Our Connected and Autonomous Vehicles courses are designed with engineers in mind, giving you the opportunity to develop your knowledge further.

The IET Academy platform allows you to access courses and modules anytime, anywhere, making it easy to fit learning in around your working day. You set your own pace of learning, allowing for a positive and personalised learning experience.

Learning with the IET Academy

- **Flexible** - you don't need to take time away from your job to complete your training. CAV modules can be completed anytime, anywhere.
- **Personalised** - our CAV courses are designed with different learning styles in mind, offering you an exciting mix of learning activities including video, case studies and interactive assessments.
- **Learn at your own pace** - all e-learning is provided in bite-size chunks so you can work through your course at a pace that suits you.
- **Learn from the experts** - provides learners with the highest standards in CAV engineering e-learning, delivered by the IET and our expert content partner.
